

100 mm - measure this. If it is not 100 mm, the print dialog scaled the page.

CMYK bars - each ink at 100%, 50% and 25%

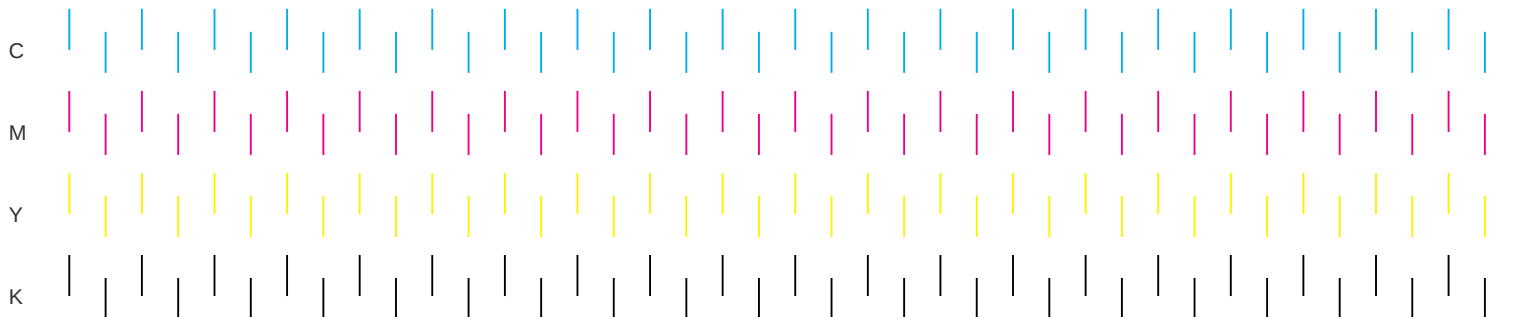

Colour fields - solid coverage, mixed inks and two skin tones

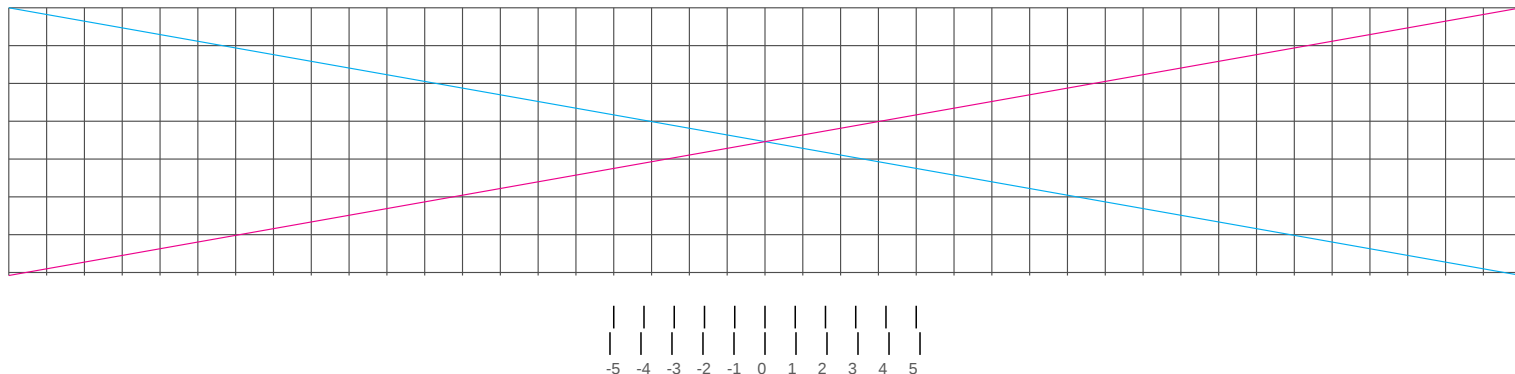

Grayscale ramp - 0% to 100% in ten steps, each step must be distinguishable

Nozzle check - every stroke must be present and unbroken

Alignment - the grid must be square and the vernier must line up at 0

Text - read down until the letters break up. That size is your printer-s floor.
